Strange Collections

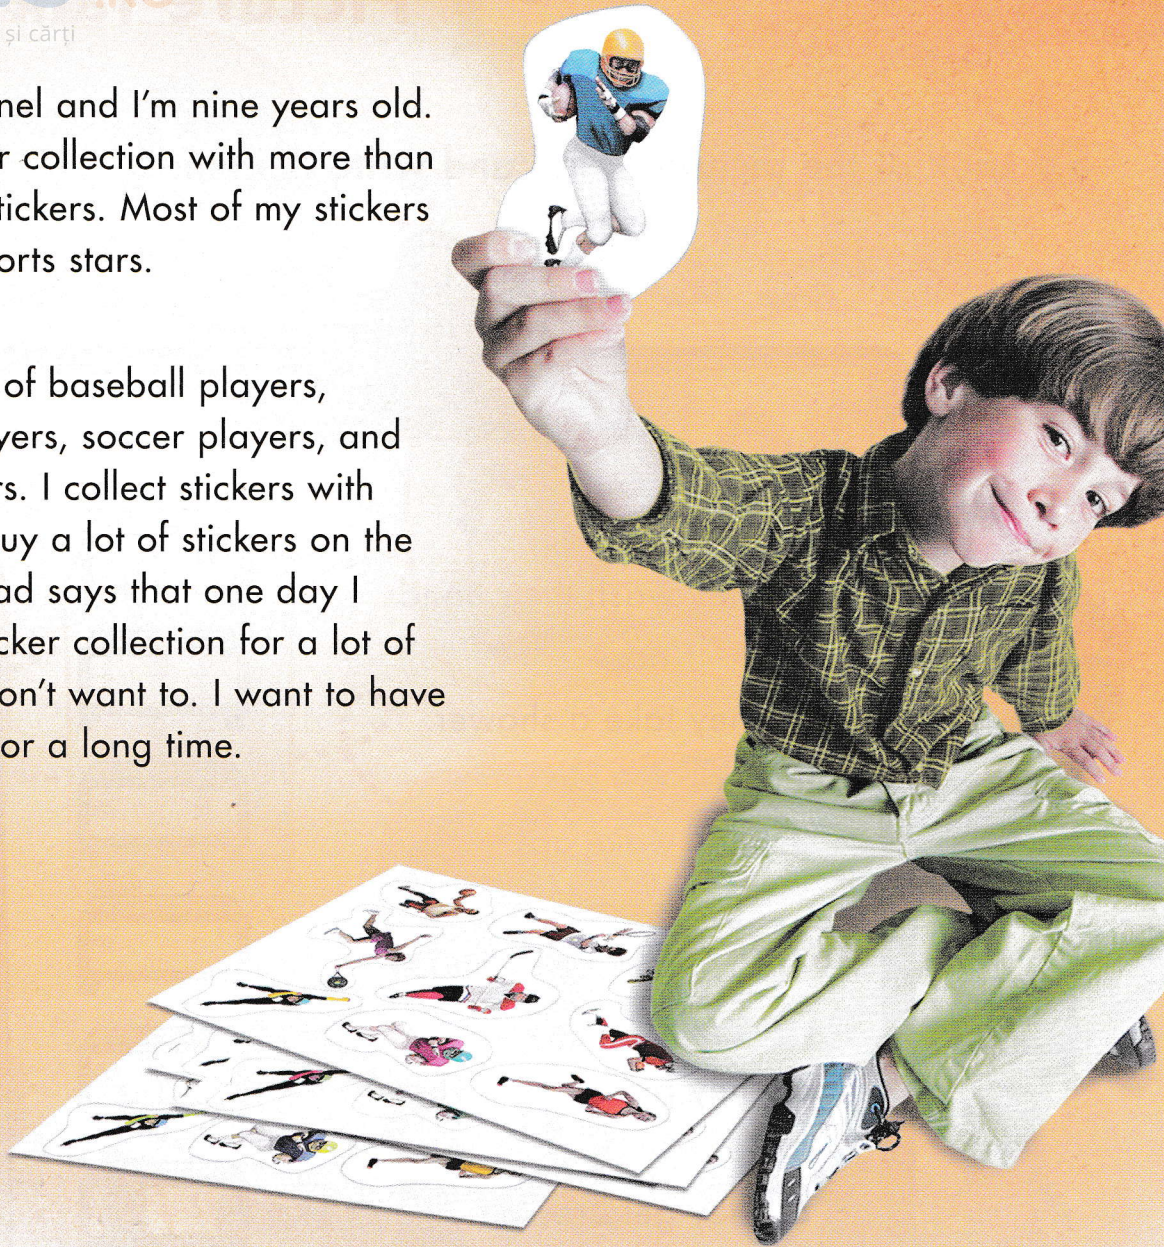

1
Hi, my name's Keisha and I'm twelve years old. I'm a collector! I have a great key chain collection.

This key chain is almost forty years old. It's from my grandma's collection. She collects key chains, too. Some of her key chains are very, very old. I like collecting key chains because they're all different. They're small, too, so I can keep them in my room. I have fifty-six key chains, but I want one hundred! I get new key chains for my birthday. I love my key chain collection.

My name's Lionel and I'm nine years old. I have a sticker collection with more than five hundred stickers. Most of my stickers are famous sports stars.

I have stickers of baseball players, basketball players, soccer players, and football players. I collect stickers with my dad. We buy a lot of stickers on the Internet. My dad says that one day I can sell my sticker collection for a lot of money. But I don't want to. I want to have my collection for a long time.

2 Write **K** for Keisha or **L** for Lionel.

Keeping Clean

1 People take care of their bodies in many ways. Animals take care of their bodies, too. But they do it differently.

We use shampoo to wash our hair. Do cats use shampoo when they clean their fur? No, they don't. They use their tongues for this. Their tongues are like small hairbrushes.

We use soap to wash our bodies in the shower. Rabbits help each other to get clean. They use their teeth to clean their fur.
