

The background is a soft watercolor wash of various shades of green, representing a field. Scattered throughout are several stylized flowers with dark green, rounded bases and multiple thin stems topped with small, bright red or orange buds. In the upper right, a large, detailed green fern frond extends across the frame. A small, realistic-looking ladybug with a red body and black spots is flying in the upper center. The overall style is gentle and artistic.

O pisicuță este destul de **mică**
să poată dormi printre flori.

Un struț nu este.

Dar un *struț* este destul de **MARE**
ca să-și poată adăposti puii sub aripi.
