A cliff top in North West Scotland

What birds are using an empty rabbit burrow for a home?

They have a bright red, blue and yellow triangular bill, grey face and orange feet. They like standing and walking about in groups.

A prickly cactus is a funny home for a bird. Who lives there?

The bird is tiny with very big eyes to see in the dark when it is hunting for its supper.

It hoots, tu, tu, tu, tutu, tutu.
