2 Put the letters in the correct order to make a word. Look at the pictures to help you.

- 1 sgub
- 2 nueqe
- 3 dnails
- 4 succir

A bug's life is difficult. The ants on Ant Island are always working. All day, every day they have to find food. The grasshoppers come and take the food. The ants have to find more and more. They're tired!

This is Flik. He makes things. He's showing his idea to Princess Atta.

Suddenly, the grasshoppers arrive. "Run!" the Queen shouts. Flik runs but he hits the food. Oh, no! Now there is no food to give the grasshoppers!

Hopper and his gang find the ants. "Where's my food?" he says angrily. "Now I want **MORE** food!" The ants are scared. They can't fight the grasshoppers. They are bigger and stronger than the ants. They have to do what Hopper says.

Princess Atta and her ants are angry with Flik. It was his mistake. Now they have to find more food.

Then Flik has an idea. "I can go to the city and find some bigger bugs," he tells them.
