WHEN STARS UNITE

Katerina Sofianou
and
Alexandra Piperaki

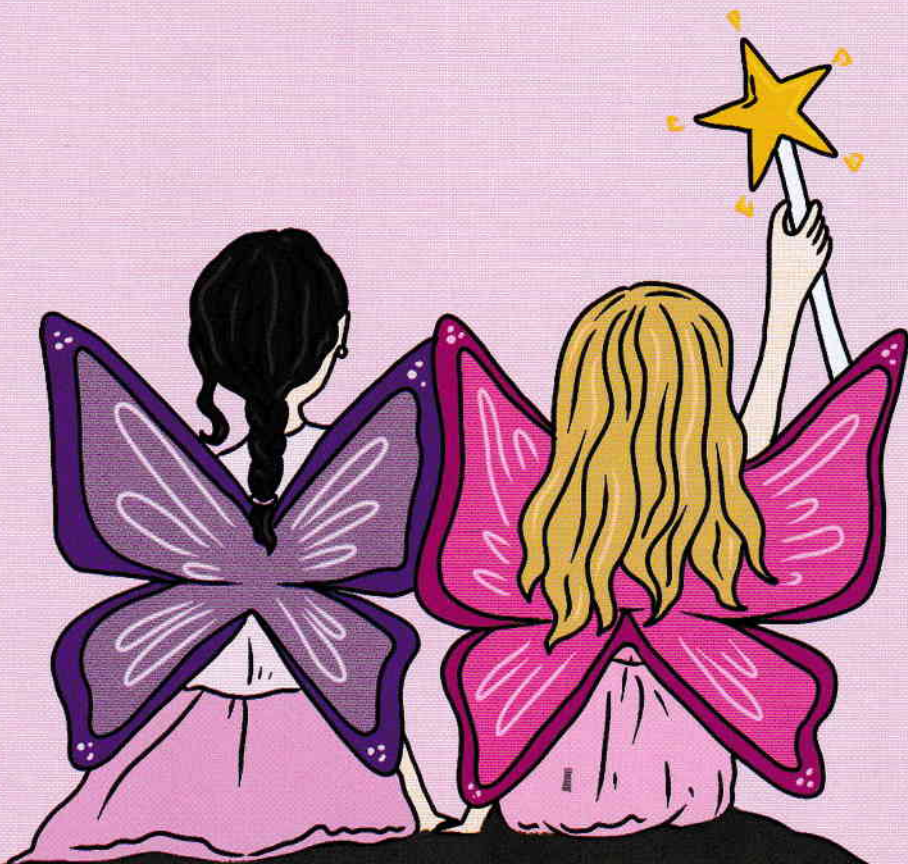

In the heart of a shining cave live two magical fairies: Alex and Kat. Their job? To help anyone who has lost the most important power of all — belief in themselves.

And how will they do that? By teaching them that believing in yourself becomes even stronger when it travels together with the belief of your friends.

One night, while looking at the sky,
Alex said, "Kat, I think it's time to send
our stars to friends who need us."

Kat smiled and waved her wand.
From its tip, sparkling star-letters
flew off into the distance...

First stop... the North Pole!

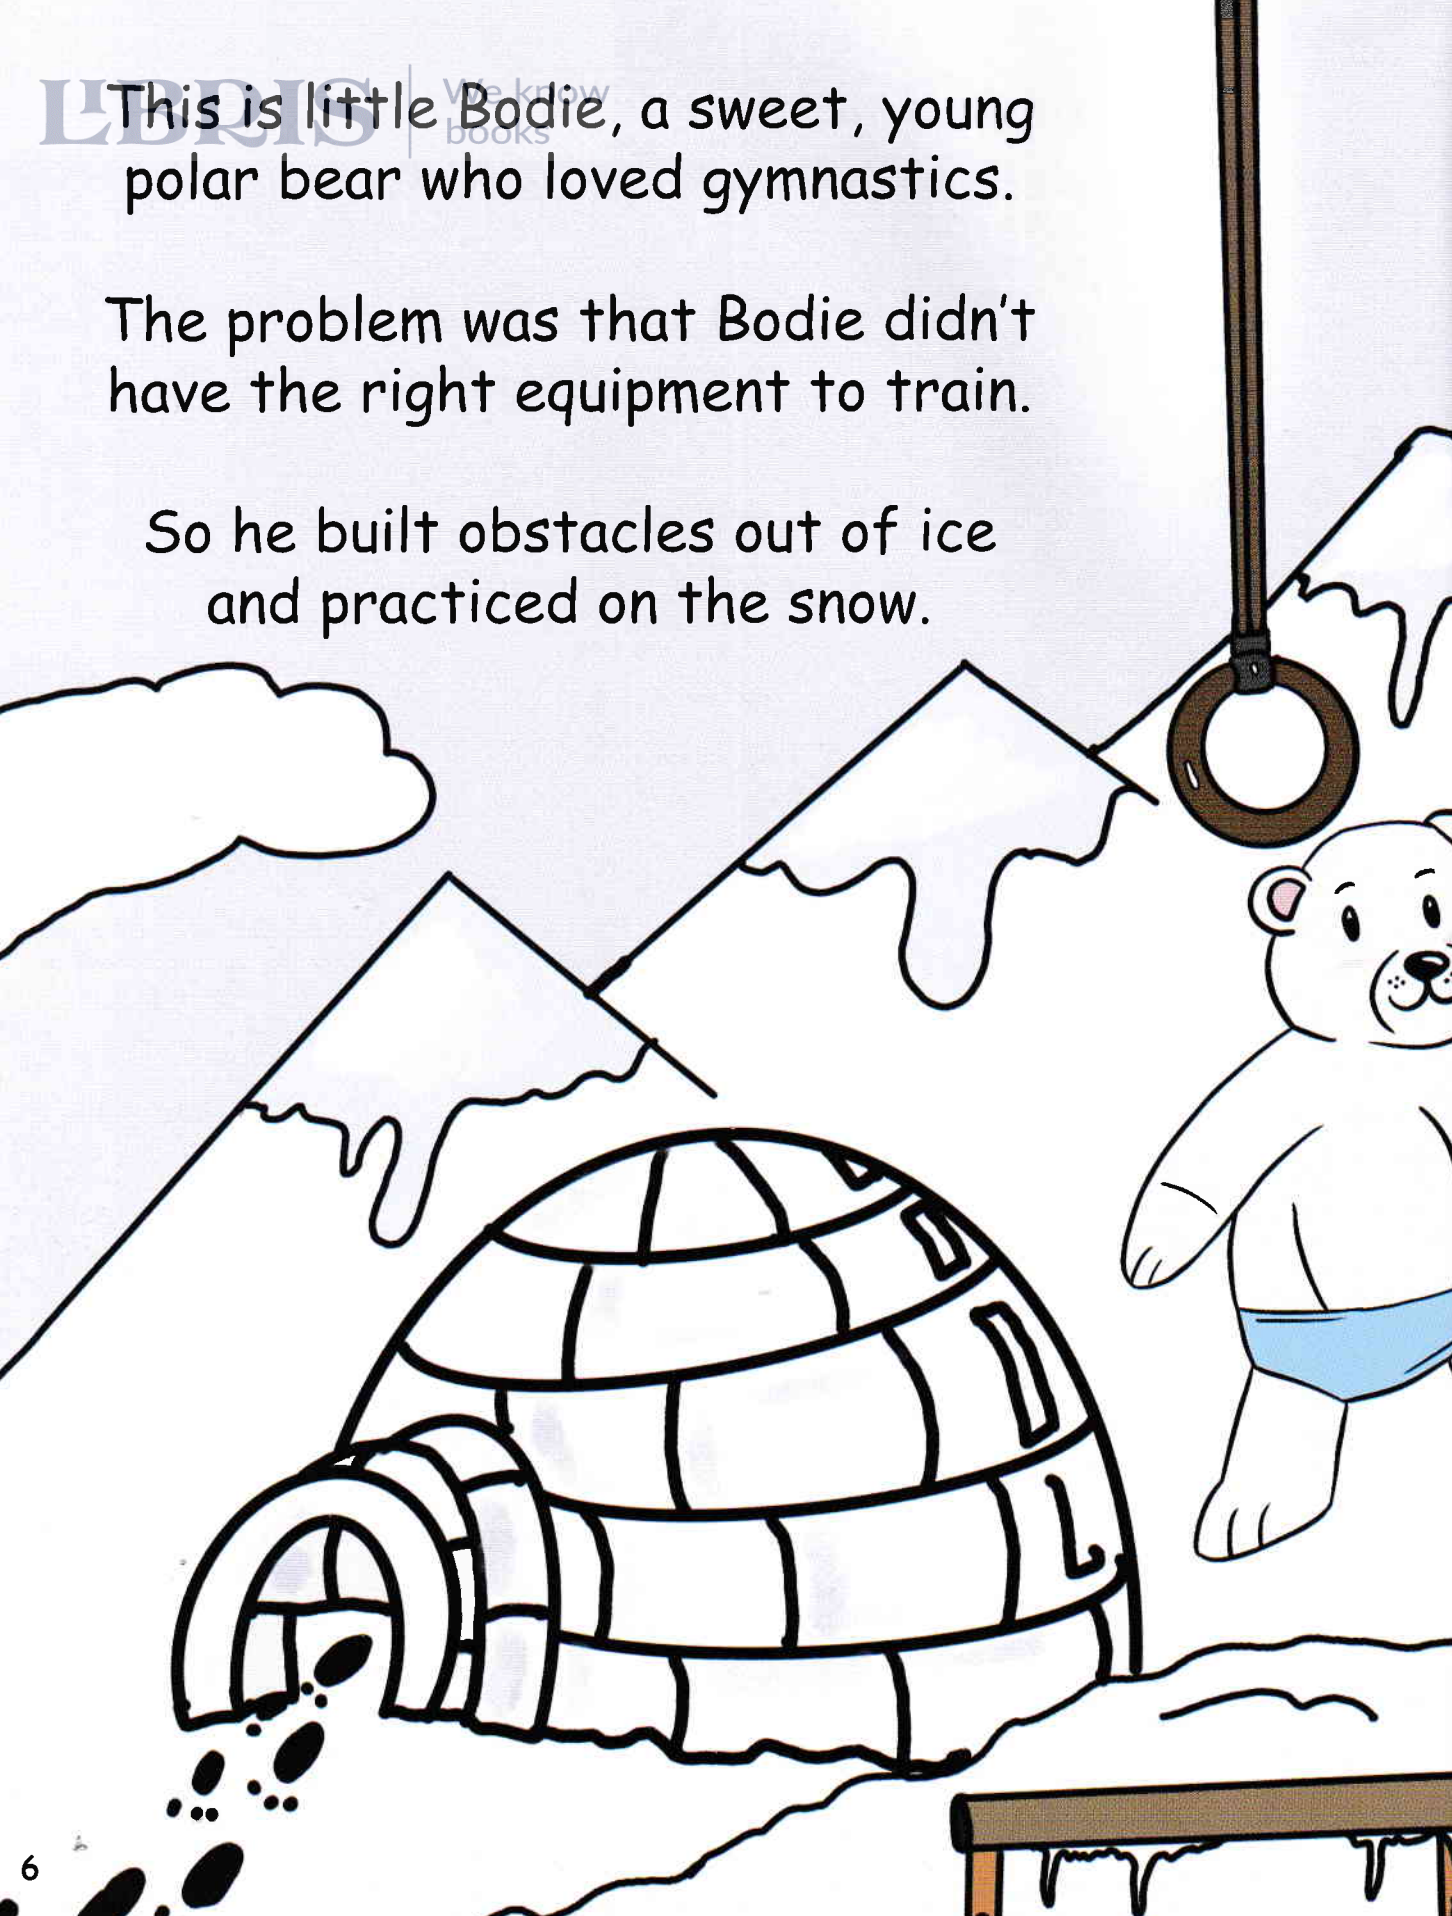

LIBRIS | We know books

This is little Bodie, a sweet, young polar bear who loved gymnastics.

The problem was that Bodie didn't have the right equipment to train.

So he built obstacles out of ice and practiced on the snow.
