

Lipește animalele lipsă și urmărește-le mișcările, trecând cu carioca peste liniile punctate. Care animal nu poate zbura? Încercuiește-l.

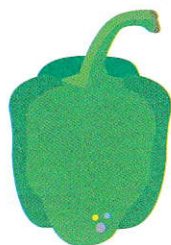

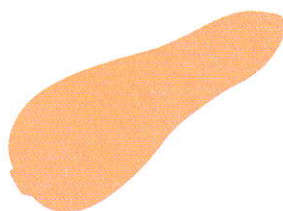

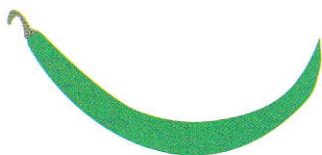

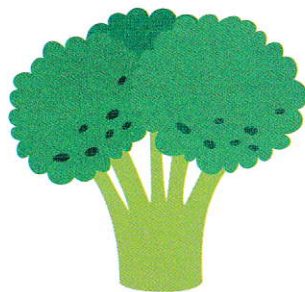

Miam, ce căpșune gustoase! Ordonează-le, astfel încât fiecare recipient să conțină același număr de căpșune.

Pe care coloană se află cele mai multe banane, rațe, lămâi și floarea-soarelui? Lipește o stea galbenă lângă aceste grupuri.

Lipește legumele care lipsesc și formează perechi unind legumele identice. Încercuiește apoi leguma care apare o singură dată.
