

An illustration of a beaver in a pond at night. The beaver is shown from the side, with its head on the left and its body extending to the right. Its tail is large and flat, with a distinct horizontal ribbed pattern. The beaver is partially submerged in the water, with its head and the top of its back above the surface. The water is a deep green color, and the background is a warm, orange-yellow glow, suggesting a sunset or moonlight. Several white stars are scattered across the sky. On the left side, there are tall, green reeds with brown, cylindrical seed pods. The overall style is soft and painterly.

Acesta este castorul.  
Seara a venit, iar el se trezește.

Îi este foame, așa că înoată spre mal în liniște.

Pâș, pâș, pâș. Castorul iese ușurel din apă.  
Pe mal cresc flori delicioase. Mmm!  
El ronțăie și tot ronțăie,  
iar în curând se simte sătul.
