EXERCIȚII GRAFICE PENTRU
CLASA PREGĂTITOARE

CUVÂNT-ÎNAINTE

Caietul de exerciții grafice propus reprezintă un ajutor important pentru cei mai mici elevi.

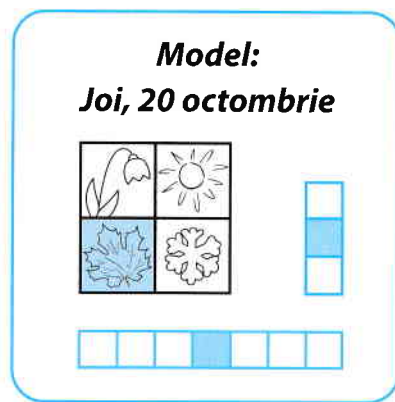

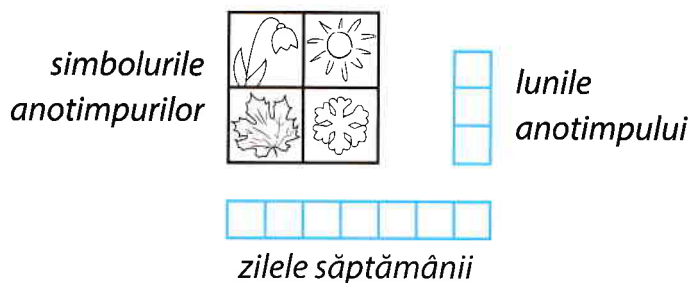

Creionul magic îi îndrumă pe copii să își dezvolte mușchii mici ai mâinii, pregătind astfel scrierea de mână într-un mod plăcut și util.

Liniatura respectă particularitățile de vârstă și prevederile programei școlare pentru clasa pregătitoare. Fiecare pagină oferă dimensiuni descrescătoare ale modelelor și ale rândurilor. Prin această alegere, se oferă copiilor posibilitatea de a înțelege și de a se adapta mai ușor, treptat, la liniatura de matematică sau la cea de tip I, pe care vor scrie în anii următori. În caiet, sunt reprezentate atât literele mari de tipar, cât și cele mici, și sunt prevăzute și semnele grafice principale pentru scrisul de mână, ce va fi abordat în clasa I.

Pentru a ușura orientarea în pagină, anumite rânduri sunt colorate cu gri.

Exercițiile au fost concepute pentru a forma simțul de observație și pe cel al simetriei, prin desene și jocuri atractive.

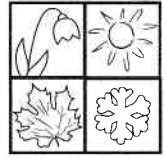

Fiecare pagină are un calendar compus din următoarele zone:

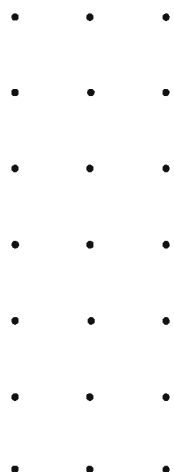

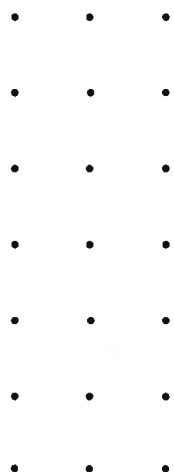

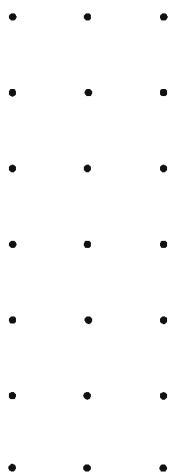

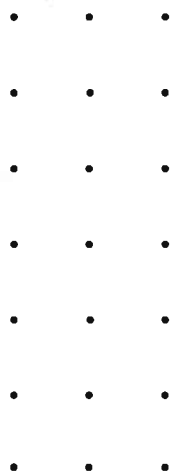

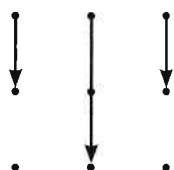

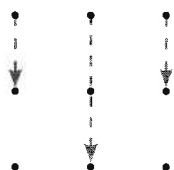

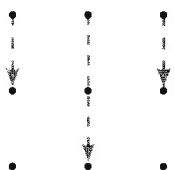

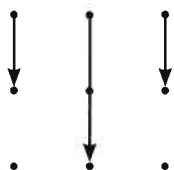

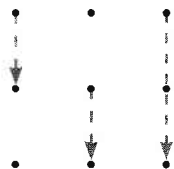

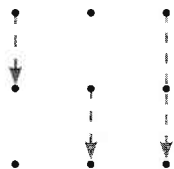

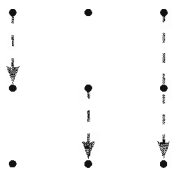

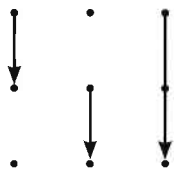

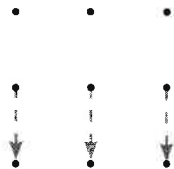

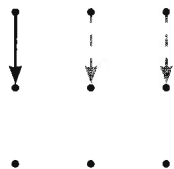

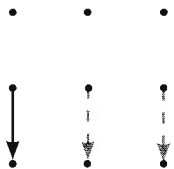

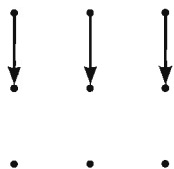

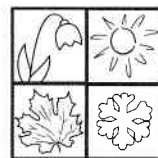

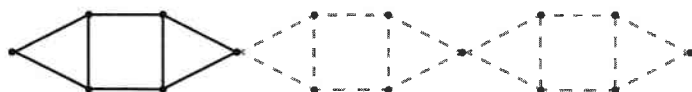

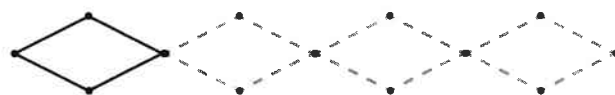

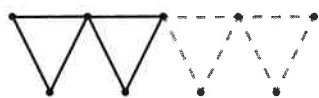

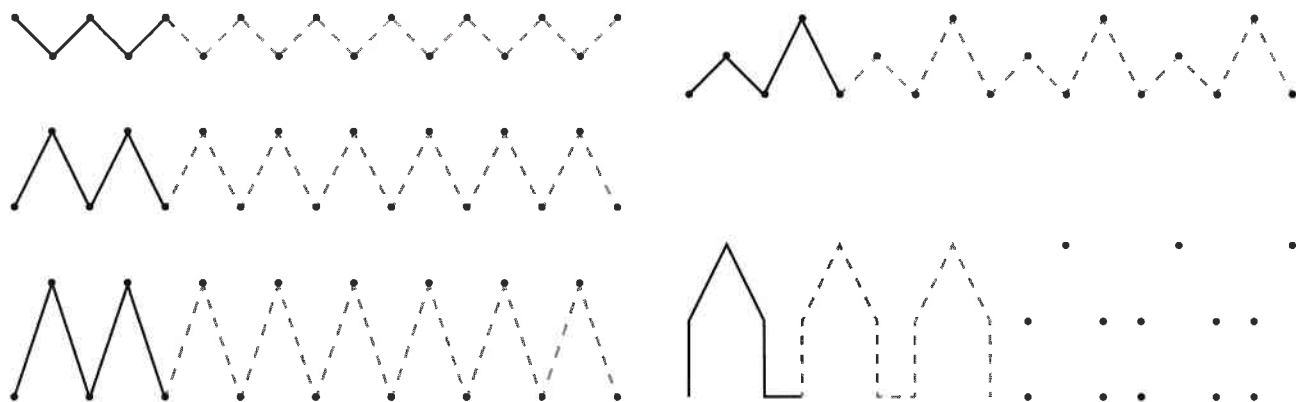

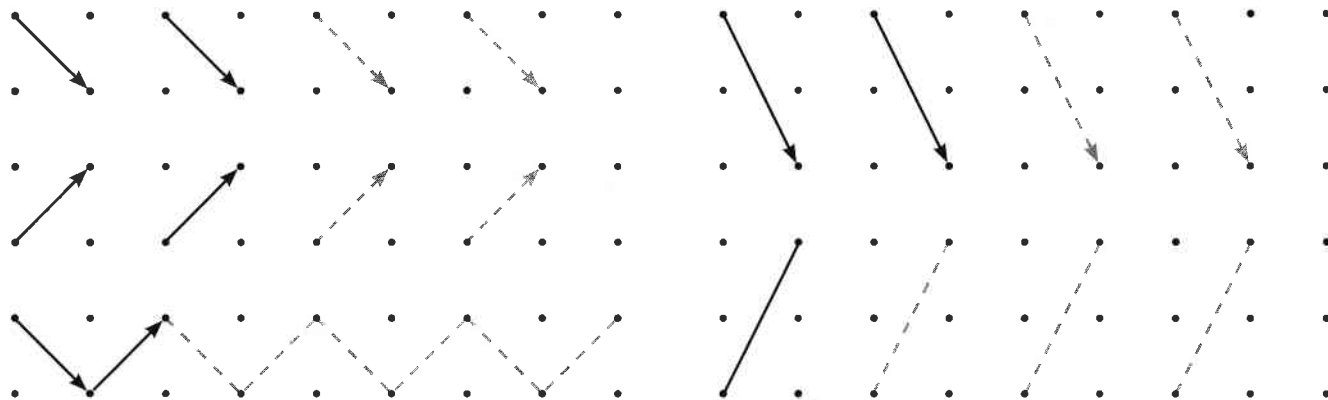

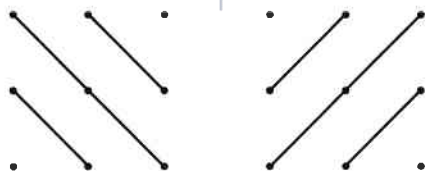

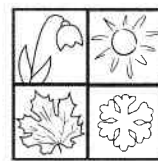

Se colorează pătrățelul corespunzător anotimpului, lunii și zilei în care se desfășoară activitatea.

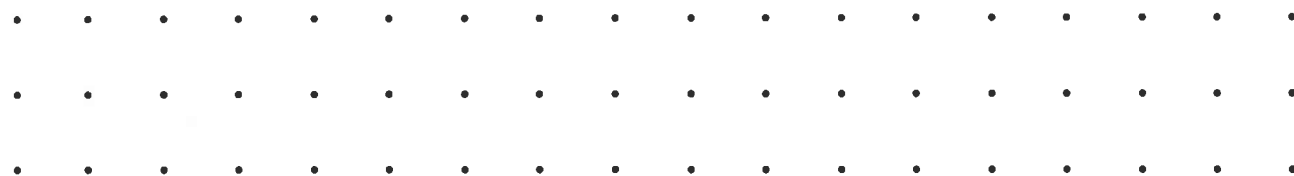

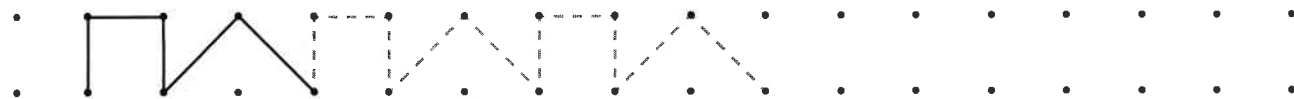

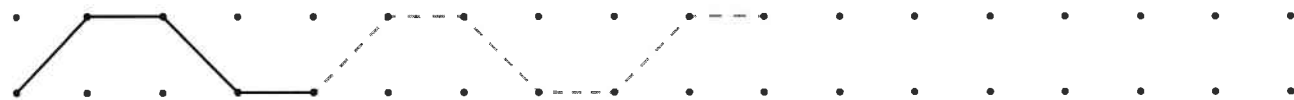

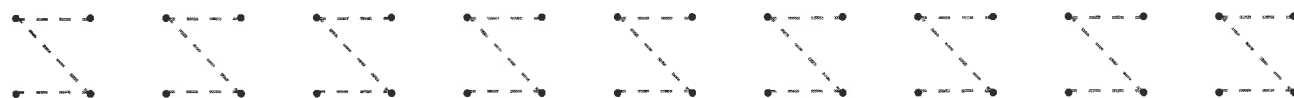

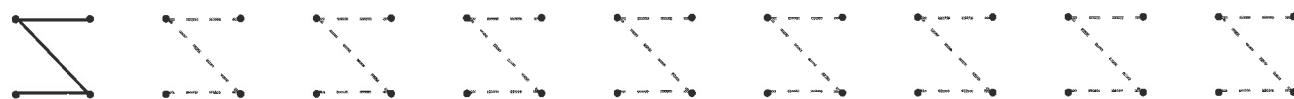

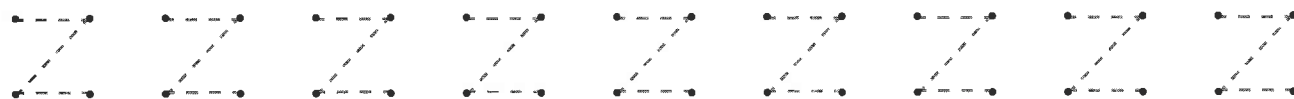

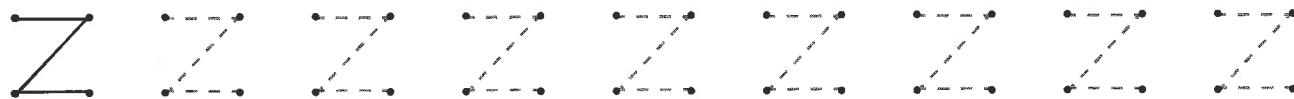

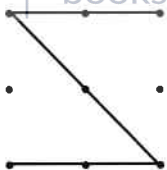

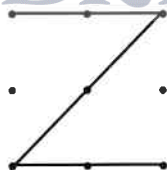

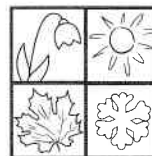

În partea de jos a fiecărei pagini există o zonă care se decupează și care poate fi folosită pentru activități în completare, pentru teme suplimentare, de aprofundare, de recuperare sau ca fișă de portofoliu.

Spor la scris!
