1

When Beethoven died, he was buried in a churchyard. A couple of days later, the town drunk was walking through the cemetery and heard some strange noise coming from the area where Beethoven had been buried. Terrified, the drunk ran and got the priest to come and listen to it. The priest bent close to the grave and heard some faint, unrecognizable music coming from the spot. Frightened, the priest ran and got the town magistrate. When

the magistrate arrived, he bent his ear to the grave, listened for a moment and said : 'Ah, yes, that's Beethoven's *Ninth Symphony*, being played backwards.' He listened a while longer, and said : 'There's *The Eighth Symphony*, and it's backwards, too. Most puzzling !' So the magistrate kept listening. 'There's *The Seventh...*, *The Sixth...*, *The Fifth...*' Suddenly, realizing what was happening, the magistrate stood up and announced to the crowd that had gathered in the cemetery : 'My fellow citizens, there's nothing to worry about. It's Beethoven decomposing !'

*

'Why is a piano so hard to open ?' 'Because the keys are on the inside !'

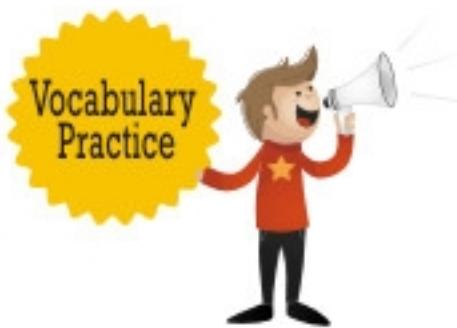

*

'What's the most musical part of a fish ?' 'The scales !'

*

'What is a cat's favorite song ?' 'Three Blind Mice !'
