LUMEA ÎNCONJURĂTOARE, FORME ȘI CULOARE

(Domeniul științe)

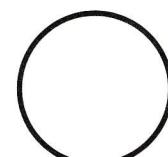

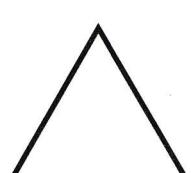

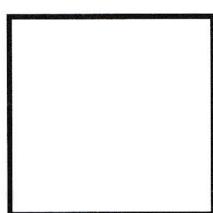

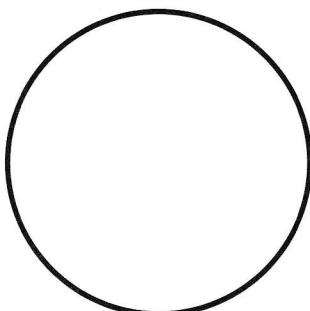

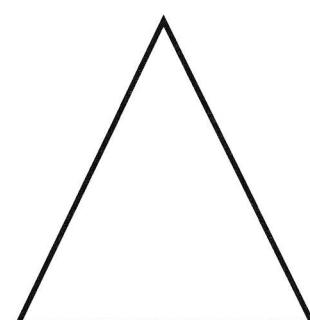

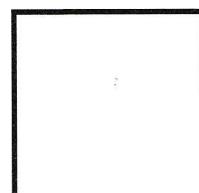

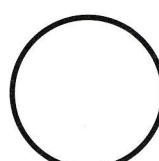

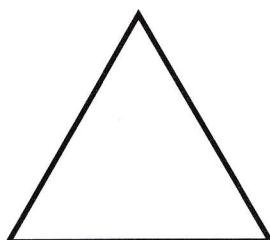

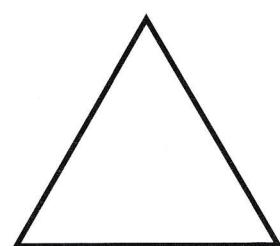

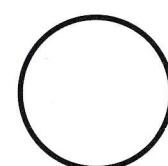

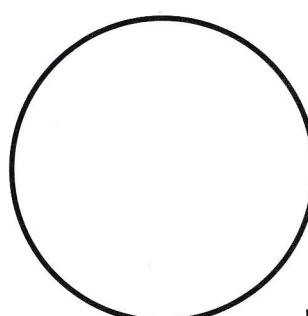

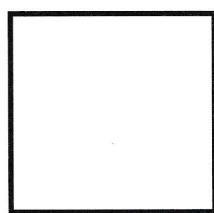

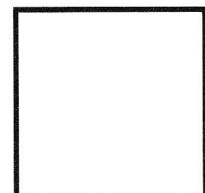

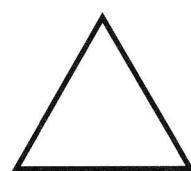

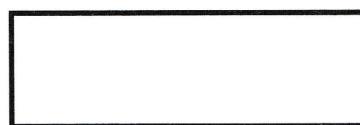

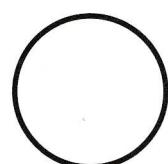

editura
LIZUKA EDUCATIV

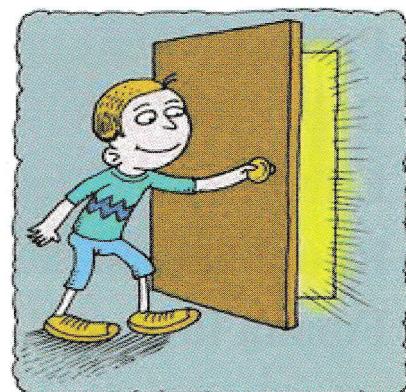

**Din strugurel, o bobîță
Zice, sărind pe rochiță:
- Nu-mi pasă că te-am pătat,
Spune-mi forma, imediat!**

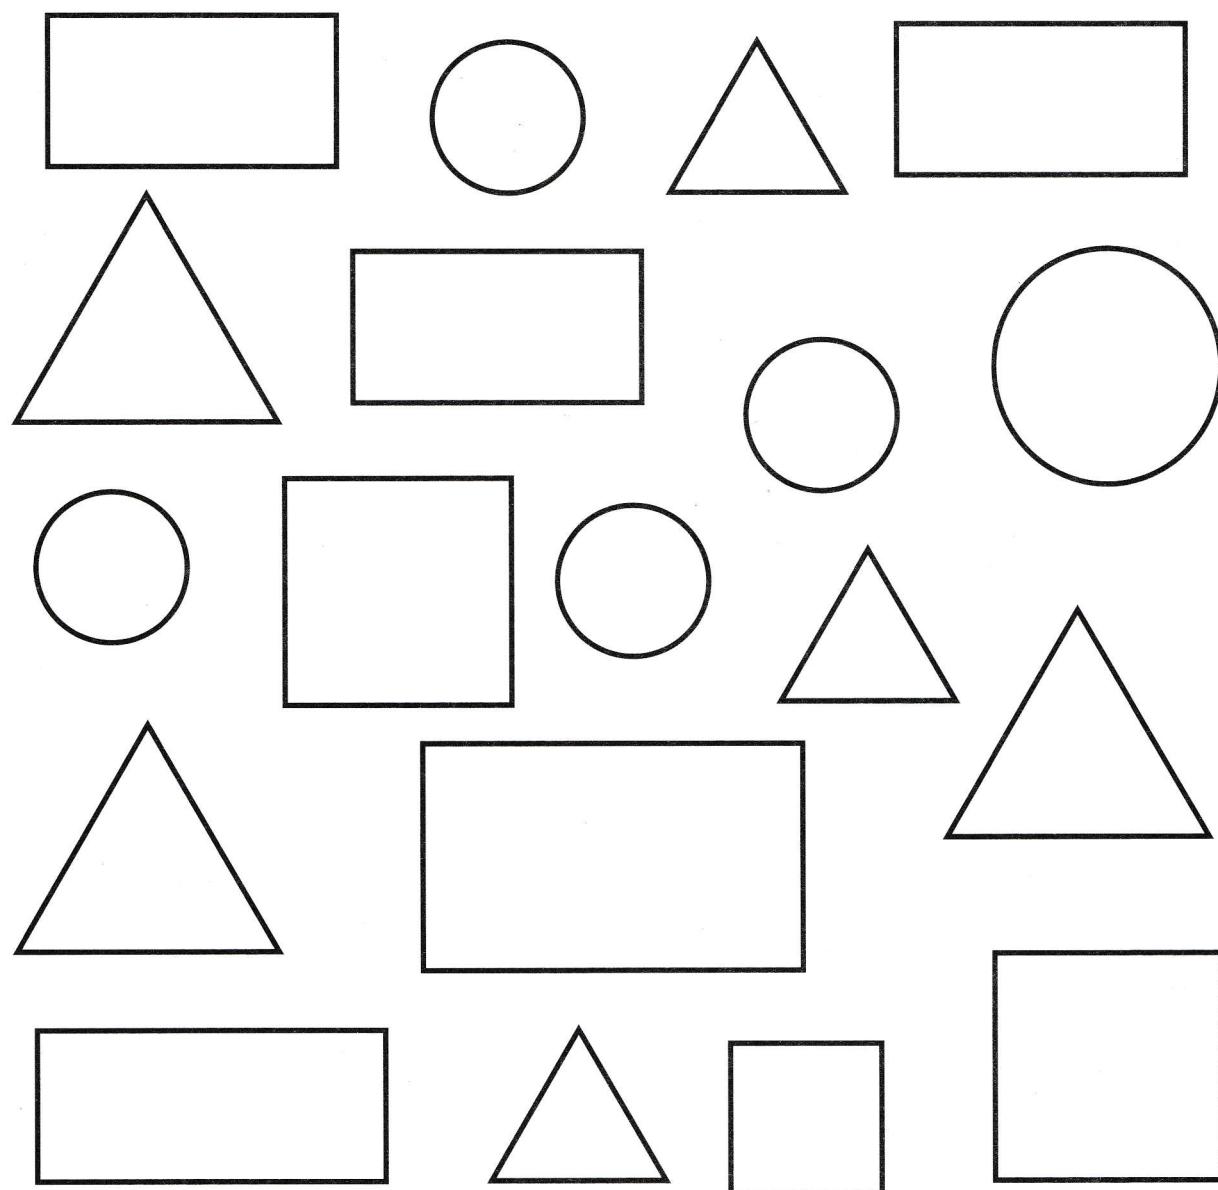

- Colorează cercurile cu albastru.

**Ușa de la grădiniță
Mă așteaptă larg deschisă,
De parcă m-ar întreba:
- Care este forma mea,
Știi să îmi spui dumneata?**

- Colorează dreptunghiurile cu roșu.

Căciulița lui Georgică

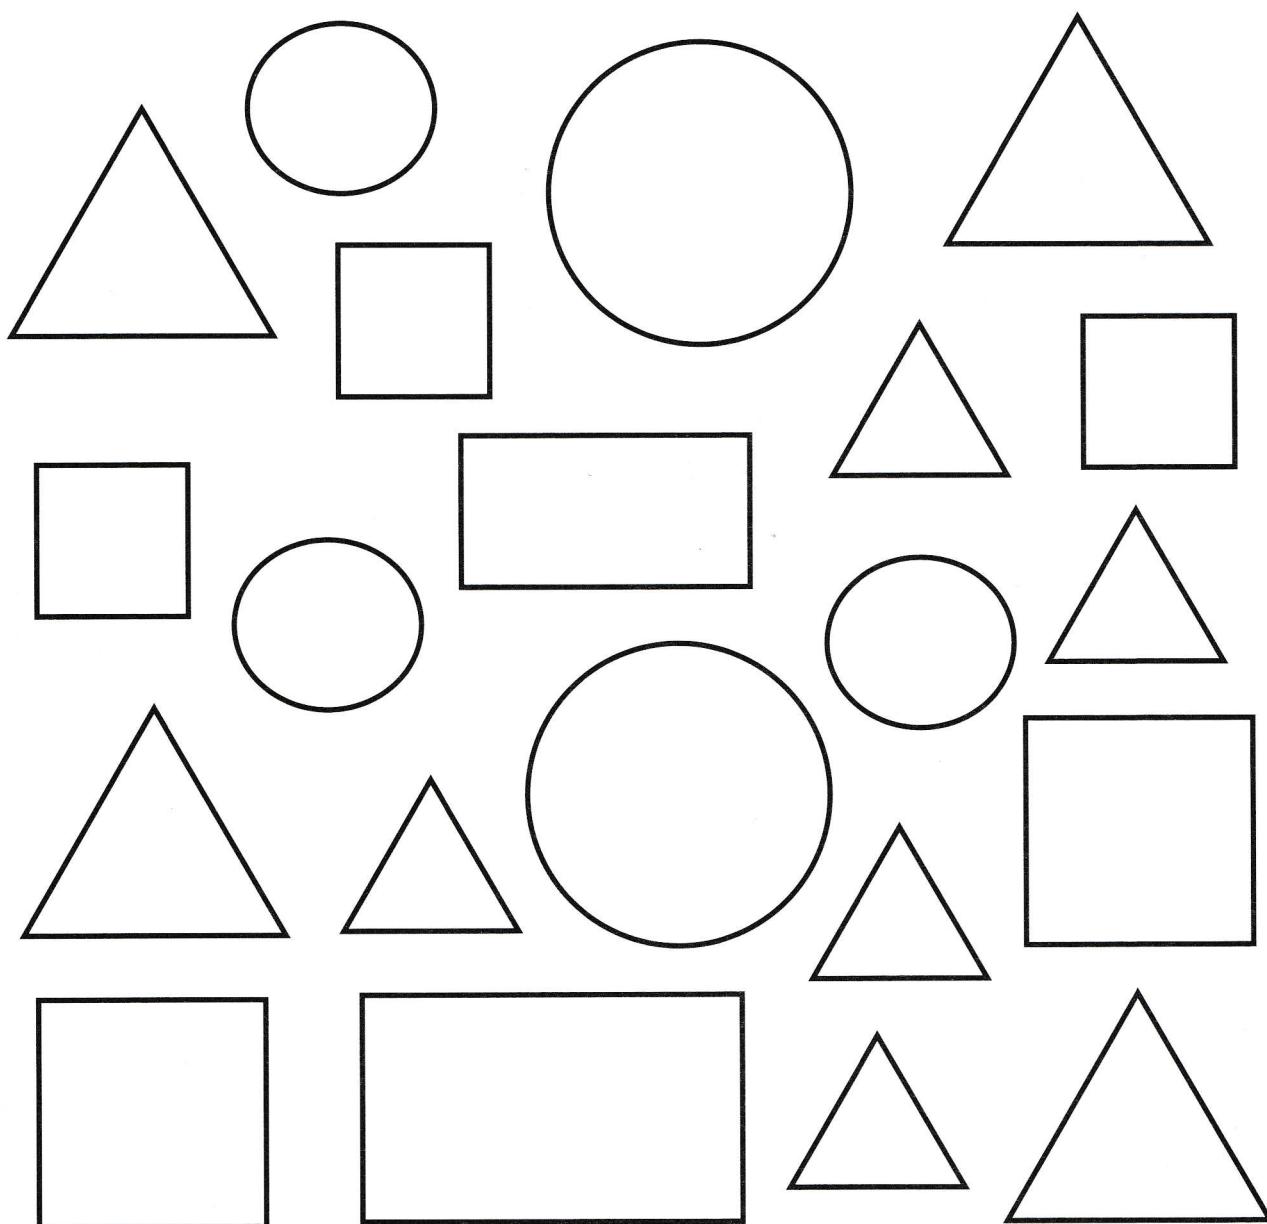

Așteaptă cumințică

Pe cap să o pui

Și forma să-i spui.

- Colorează:
 - cu portocaliu triunghiurile mari.
 - cu roz triunghiurile mici.

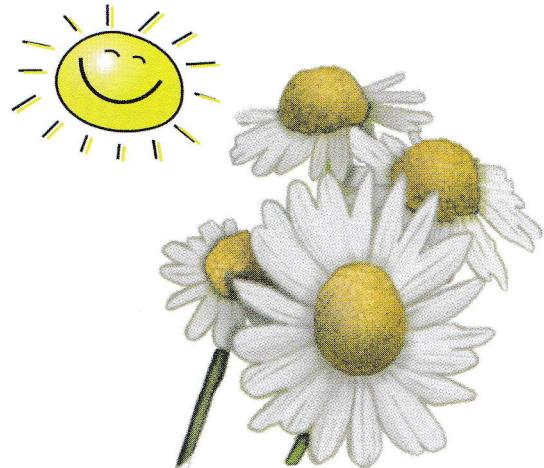

O floare de mușețel

Sare dintr-un buchețel

Întrebând cu nerăbdare:

- Semăn eu cu mândrul Soare?

Seamănă... ce formă are?

Taie: - cu o linie verticală cercurile mari.

- cu o linie orizontală cercurile mici.
